- ❖ **Comfortable:** JWT, Zustand, TanStack Query, Zod, Shand CN, Ant Design, and REST APIs.
- ❖ **Familiar:** Firebase, Stripe, Node mailer, Heroku, Netlify, Vercel, and Agile/Scrum methodologies.
- ❖ **Tools:** Vite, Jira, Postman, VS Code, Git, GitHub, NPM, Yarn, DevTools, MS Word, Figma, PS, Canva.
- ❖ **Soft Skills**: Punctuality, adaptability, problem-solving, teamwork, excellent communication, and the ability.

EXPERIENCE

MERN Stack Developer
Bigmod Technologies (Jun 2024 – Present) – full-time, Remote
- Developed and maintained complex frontend using React.js and Next.js (SSR, SSG, ISR).
- Collaborated with backend teams for seamless integration using Node.js and MongoDB.
- Implemented secure authentication and authorization systems.

Frontend Developer
Shothik AI (Oct 2024 – Jan 2025) – full-time, Remote
- Developed complex frontend features using React.js and Next.js with AI integrations.
- Designed and implemented Optical Character Recognition (OCR), paraphrasing, and proofreading functionalities.
- Built pixel-perfect, responsive layouts and implemented advanced authorization systems with CSR and SSR.
- Develop robust SEO-centric designs and web caching for improved user experiences.

Frontend Web Developer (Next.js)
RedRose Corporation (Dec 2023 - Sep 2024) – full-time, Remote
- Led the development of a scalable frontend using Next.js, focusing on user authentication and optimization.
- Implemented authorization mechanisms to ensure secure user access control.

Frontend Developer (React.js)
Ionic Corporation (Sep 2023 - Dec 2023) – full-time, Onsite
- Developed responsive web pages using React.js and Tailwind CSS, focusing on mobile-first design.
- Collaborated with cross-functional teams to enhance website performance.

PROJECTS

1. CarSure – A full-stack car shop web application.
Key Features: Custom authentication system, role-based dashboards (user, admin, super admin), advanced product search and filtering, cart and checkout system, payment integration, and image hosting. Includes API caching, secure JWT-based authentication, dark/light mode, and full CRUD operations for products and orders management.

Technology Stack: React.js, RTK Query, Redux Toolkit, Tailwind CSS, ShandCN, TypeScript, Node.js, Express.js, MongoDB, JWT, Cloudinary, SurjoPay, Zod, and more.
Live site || Frontend code || Backend code

2. Dancing Guru – A full-stack website for buying and selling dance courses, with role-based login for students, instructors, and admins.
Key Features: Firebase-based authentication, responsive UI, and separate dashboards for different user roles.
Technology Stack: React, Tailwind CSS, Firebase, Node.js, MongoDB.
Live site || Frontend code || Backend code
